EXPERIENCE

Tabagoods , Philadelphia, U.S— *Frontend*

March 2022 – July 2022

I'm part of the team that implemented the UI designs for the e-commerce platform using Nuxt.Js. I worked together with the team for better architecture of the website and also implemented the PWA functionality. Also, I worked with my team to ensure the implementation was well connected with the backend.

Aimtoget, Oyo, NIgeria— *Intern*

October 2020 – March 2021

I did my internship in this company as a frontend developer using pure vanilla javascript

EDUCATION

Ladoke Akintola University of Technology, Computer Science — *B.Tech*

April 2022

Zero to Mastery Web development, Udemy— *Degree*

November 2020

PROJECTS

PhoneUp — *Detail*

This is an application with PWA functionality in which the user can save, edit and delete their friends and family contacts, addresses and other details. This project was created with Vue.Js

Whatsapp— *Detail*

I created whatsapp with a basic function using react.js. It is a real time chatting app with other functionality.
